

<p>Gourab Paul Software Developer E-Mail Id: gourab.p17@gmail.com Phone: +91-8056208803</p>

PERSONAL SUMMARY

Above 2 years of experience as a Software Developer with strong Technical Knowledge and functional knowledge as well. I'm capable of identifying clients' requirement and providing them appropriate solution within stipulated timelines. I've experience in helping, providing guidance with an up-to date Technical solution to both Clients and colleagues. Always accepted to work in new skills/technology and have done that successfully.

Now I'm seeking for a more challenging Java Developer position which will use the best of my experience and skills and where I can learn more new technologies to improve my personal & professional skills.

WORK EXPERIENCES:

Tata Consultancy Services ***Software Developer (March, 2013 - Present)***

Key responsibilities include:

- Designing, prototyping to check the technical feasibility of the requirement and then providing best technical solution.
- Preparing technical specification to document all the technical changes done to meet the requirement.
- Also includes solving defect and providing support to the code after it has moved to production.
- Helping colleagues and other team members with any kind of technical expertise for complex developments.
- Preparing Functional Specifications gathering requirements from the customer.
- Providing them end to end solution of the requirement they proposed
